

– SEPTEMBER IS – NATIONAL SUICIDE PREVENTION MONTH

The Journal of the American Medical Association (JAMA) published a study in September of 2023 that looked into the mental health crisis among healthcare workers. This study noted that **healthcare workers have a 32% elevated risk of suicide**. As healthcare workers selflessly care for those in need each day, it is time for us to take action and start caring for ourselves and each other. I challenge you to take a moment of your time each shift to ask a co-worker how they are doing – whether a doctor, nurse, or tech. This tiny question, could truly make a difference in someone’s life.

Attendees had an opportunity to practice hemorrhage control techniques while under a collapsed floor with Erlanger Trauma Services, Life Force, & Chattanooga Fire Department.

It was great to be back in person at Erlanger’s Trauma and Surgical Critical Care Symposium! Participants had an opportunity to learn and engage with subject matter specialists, explore the human body in the cadaver lab, and practice lifesaving hands-on skills with life like simulation aides. We are looking forward to next year’s event and hope to see you there!

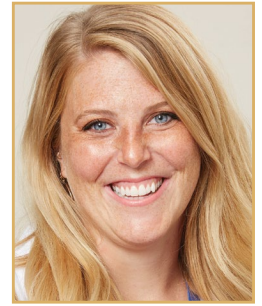

UPCOMING EVENTS

- ▶ ATCN/ATLS: Oct 17-18
- ▶ TNCC: Nov 7-8 | Dec 4-5
